PRICE TWO CENTS

## A Name Twice Made Famous, Now a Shining Mark for Imitators.

The name "Chase," twice made famous, is a shining mark for the unscrupulous to pounce upon and appropriate in order to foist upon the public their worthless preparations. These birds of prey, by using the name Chase, expect the public to be fooled into believing they are the medicines of Dr. A. W. Chase, who first became noted as the author of the world famous Dr. Chase's Kidney Pills, and whose fame was increased by the wonderful success of his Nerve Pills, with Nerve, Brain and Blood trouble. They play upon the name Chase, but dare not use the initials "A. W."

They imitate, but dare not counterfeit the portrait and signature of Dr. A. W. Chase, which identifies the Nerve Pills now recognized as infallible for building up pale, weak, thin-blooded, nerve exhausted sufferers. Who are nerve-tired and brain-weary. Who are easily exhausted. Who are wakeful—cannot sleep. Who have nervous headache. They remove the cause of blood impurities, securing refreshing sleep and impart strength. They build up people who find their strength and vigor waning. They settle irritated nerves, replace languor and lamitude with energy and animation. Cure Nervous Dyspepsia.

**CAUTION.**—The protection to the public in securing the genuine and original Dr. A. W. Chase preparation is in seeing the portrait and signature of A. W. Chase, M. D., on each box. These and these only are the genuine. Do not be misled with anything bearing the name "Chase" without the initials A. W., or the signature of Dr. A. W. Chase, Medicine Co., Buffalo, N. Y.

A. J. PELLERS, DRUGGIST.

The five-cent packet is enough for an ordinary occasion. The family bottle, 50 cents, contains a supply for all. All drug-stores sell them.

## NOTHING TO SAY

President and His Advisers Again Talk Over the Strike Problem.

### A SUNDAY CONFERENCE

Three Hours of Deliberation Given to the Subject That Now Most Concerns the People.

Nothing Was Given Out and It Is Not Known What Conclusions Were Reached.

Washington, Oct. 6.—In an earnest effort to expedite the adjustment of the coal strike problem another conference over the situation was held at the White House Sunday and adjourned after three hours of deliberation. No statement was given out as to the conclusions reached, and every participant absolutely refused to discuss what had taken place during the meeting. The conference was called for Sunday in view of the extraordinary importance to the American people of a speedy solution of the question. Besides the president there were present at the conference Secretary of War Root, Secretary of the Navy Moody, Attorney General Knox, Postmaster General Payne, and Carroll D. Wright, United States commissioner of labor. The last named was summoned to attend the conference on account of his expert knowledge of the situation in the anthracite coal fields, and because of the personal investigation of the conditions there which he made some months ago at the instance of the president. It was noticeable that only four of the members of the cabinet were present. This, however, was significant only of the fact that three of these four were lawyers and that the issue involved was one which called for the deliberation of trained legal minds.

The president in expressing his views at the outset of the conference talked earnestly and showed a deep feeling. His voice at times could be heard distinctly. Several times during the conference Secretary Root was summoned into the room and directed to prepare certain matters for the consideration of the president and his advisers. This was taken to indicate that some action of one nature or another was about to be consummated.

When the conference adjourned a few minutes before 1 o'clock all those who had joined in it declined to talk. Every member of the cabinet and Col. Wright, the only outsider who was present, was pledged to the president to absolute secrecy as to what had occurred within the conference room. The utmost efforts were made to guard against publicity. Even the presidential summons to the conference had been made in a very quiet and carefully guarded way. Not since the Spanish war has there been such reticence shown at a conference of this character as was observed yesterday.

In this state of absolute reticence of the parties to the conference it is almost impossible to do more than draw the most general of conclusions as to the nature of the proceedings, based upon what preceded the meeting. The known facts are that the president has reached the conclusion that he has nothing to expect save refusal from a further appeal to the coal operators, and therefore has decided to look for relief from a situation to the miners' side.

He feels that he hardly can expect them to make the sacrifice of all their contentions without holding out at least a promise of some return, and the question before him is as to his ability to do this. He can pledge himself to appeal to congress to examine into the justice of the miners' complaints and remedy them so far as lies in the power of the executive branch, backed by the earnest good will of the executive. Also he can suggest to Governor Stone of Pennsylvania that he cause the Pennsylvania legislature likewise to make an inquiry, perhaps hastening the usual methods by calling an extra session. But these pledges would be given only on condition that the men go at once into the mines and get out with all speed the coal for which the people are suffering. To adopt this course means the continuance of the policy to exert moral suasion to end the strike. It is certain that thus far the president has not found a single one of his constitutional advisers who could suggest any departure from this policy; no one could find a method sanctioned by law or constitution which promised relief and involved the use of duress against either the operators or the miners. That the parties to the conference feel they have accomplished something was made evident by the expressed belief of one of the conferees that the miners soon will be again at work.

One object of the conference was to consider some of the propositions that have been sent to the president for settling the strike. These came from every section of the country and a large proportion from men of standing and reputation. At the same time it is said that the suggestions often are absurd and impracticable. Others, offering a possible solution, already have received attention. Two constantly recurring propositions for federal interference, one that United

States troops be sent into Pennsylvania for the protection of the men the operators employ, and the other that the mines be seized by the general government, are rejected, no matter by whom urged. The first conference developed the fact that no federal interference by force was possible, and to that conclusion the president has firmly held.

### Will Remain Firm.

Wilkesbarre, Pa., October 6.—The Washington conference between President Roosevelt, the coal operators and the representatives of the anthracite coal mine workers having been without result, the strike leaders are now engaged in tightening up their lines and preparing themselves to combat any movement by the operators to break the ranks of the strikers.

### To Swell the Fund.

Cleveland, O., Oct. 6.—The members of the Ohio Federation of Labor, who are to meet at Cambridge, Ohio, tomorrow, will introduce a resolution asking the American Federation of Labor to assess its million and a half members 10 cents a week for the benefit of the striking coal miners. If the matter is acted upon a sum of \$150,000 weekly will be raised.

### MOROS LOST OUT

Capt. Pershing Routed Them and Razed Their Forts.

Manila, Oct. 6.—Captain John J. Pershing's column has completely routed the Maciu Moros in the island of Mindanao, killing or wounding a hundred of them, and capturing and destroying forty forts. Two Americans were wounded.

It is believed the moral effect of the defeat of the Moros will be great. General Davis has ordered that hos-

General John J. Pershing.

ilities be stayed in order to permit the sultan of Bacolod and other hostile sultans to make peace. The sultans of Maciu were confident of their ability to defeat the Americans, and vowed, before the fight, to enter slavery voluntarily if they themselves were defeated.

### TEAMSTERS COMPLAIN

Chicago Express Haulers May Go Out in a Body.

Chicago, Oct. 6.—Unless the pleadings of the teamsters' joint council shall be heeded, 1,400 members of the Railway Express Drivers' union will go on strike today. The members of the union at a meeting Sunday afternoon, by a practically unanimous vote, decided to call an immediate strike, and their action was reported to the joint council last night for endorsement. The council refused to sanction an immediate strike and asked the men to postpone action for ten days, during which further efforts might be made to bring about a peaceable solution of the trouble.

The strike which was voted Sunday is aimed at all the express companies doing business in Chicago. The companies refuse to recognize the union or to pay the scale demanded by the men. The men on the other hand insist that their demands shall be met. Neither side appears to be willing to recede from the position it has taken. Unless the pleadings of the joint council shall be heeded, every teamster employed in handling express matter will go out.

### Dynamiters At Work.

Shelbyville, Ind., Oct. 6.—The people residing in St. Paul, a village at the edge of Shelby county, are excited owing to the finding of a stick of dynamite under a bridge in that vicinity. The fuse which was attached to the dynamite was partly burned and had evidently gone out. The bridge is a good one and no motive is known why the culprit wished to destroy property. Only a few days ago an attempt was made to blow up part of the hotel building at St. Paul, and a few weeks ago one of the hotels in that place was burned to the ground.

### SENSE TELEGRAMS

The typical martial law in Natal has been enacted at Pietermaritzburg. The steeple of the church of St. Stefano, Venice, shows further signs of collapse. Two bombs of great antiquity have been discovered in the Necropolis in the forum at Rome. The remains of Emile Zola were laid at rest at Paris Sunday with simple but impressive ceremonies.

Army expenditures decreased during the past fiscal year \$918,919 as compared with the preceding year. Disgrace from Pennsylvania's rebellion has been completely submitted by the Federal government.

The twelve months drought at Conza, Tex., seems to be broken at last. Two good rains have fallen in the last week. Henry Shackelford Davis, an American lawyer, has been remanded in a London police court on the charge of obtaining money by means of a worthless check.

Banker Robert Fowler was convicted of bribery in connection with the St. Louis bond cases and was sentenced to five years' imprisonment in the state penitentiary. Capt. Pershing's column has completely routed the Maciu Moros, in the island of Mindanao, killing or wounding a hundred of them and capturing and destroying forty forts.

## BIG ENCAMPMENT

Old Soldiers Gather at Washington By the Thousands.

### ATTRACTIVE PROGRAM

Veterans Will Lack Nothing in the Way of Pleasant Entertainment at the Capital City.

Thirty-Sixth Annual Encampment of the Grand Army of the Republic Is Now On.

Washington, Oct. 6.—The thirty-sixth annual encampment of the Grand Army of the Republic began here today, and with the meeting of the various auxiliary organizations affiliated with the main body will continue until next Saturday. Preparations for the gathering are complete and Washington is ready to entertain the almost countless throng which will make the city their headquarters during the week. The local committees have taken every precaution for the protection of life and limb, and the housing of those who will be unable to find hotel accommodations. For indigent veterans large tents have been erected on the White House lot and several floors of the new government printing office have been utilized. Great crowds of visitors have been pouring into the city, and at the railroad stations it is said that the number of persons coming to the encampment is perhaps greater than ever before brought to the city on any occasion.

The business houses and private residences along Pennsylvania avenue and the other main thoroughfares of the city have been appropriately decorated for the encampment season. The display of flags and bunting is very gorgeous.

Today there is scheduled an automobile parade, a regatta on the Potomac river, the dedication of Camp Roosevelt on the White House lot, at which Secretary of State John Hay will make the official address, and a grand campfire at Annapolis.

Tuesday the naval parade will take up the morning, while the afternoon and evening is to be devoted to receptions and reunions.

Wednesday will occur the big parade of the Grand Army of the Republic, while in the evening a number of receptions will be held.

Thursday, Friday and Saturday will occur the meetings of the naval encampment and the various auxiliary bodies, and also reunions and receptions.

### CAN'T REVIEW PARADE

President's Condition Prevents His Share in the Program.

Washington, October 6.—President Roosevelt will not review the parade of the G. A. R., at which it was expected he would occupy the reviewing stand in front of the White House. The official statement that he would have to exercise extreme care indicated that it would be impossible for him to review the veterans, and the direct statement that he will not do so has been made on official authority. The president has not yet been able to rest his foot on the floor, and his physicians have forbidden him again to overtax his strength as he did during the past week.

### Golden Jubilee.

Louisville, Ky., Oct. 6.—Twenty thousand persons gathered in the vicinity of the Cathedral of the Assumption in this city Sunday afternoon to witness a parade composed of 5,000 Catholics in honor of the first day's celebration of the golden jubilee of the Rt. Rev. William McCloskey, bishop of the diocese of Louisville. The procession was reviewed by the aged prelate, who sat in front of the cathedral surrounded by the clergymen of Louisville and a number of city officials.

### Right to Jaw.

Grand Rapids, Mich., Oct. 6.—Wm. D. Barringer, a cooper, was killed Sunday by Thomas A. Stewart, a negro barber. Barringer is alleged to have made an insulting remark to Stewart's wife, and her husband felled Barringer with a blow on the jaw, from which he died almost instantly. Stewart is in jail.

### Soldiers On Guard.

Gleason, N. Y., Oct. 6.—As a result of renewed activity by the striking motorman of the Hudson Valley Electric railway company, soldiers of the national guard are again guarding the peace of this town, and though there has been no rioting, an uneasy feeling prevails.

### Irish Dynamited.

Tamaqua, Pa., Oct. 6.—A section of track on the Silver Creek branch of the Philadelphia & Reading railroad was blown up with dynamite early Sunday. When the locomotive train reached the scene of the explosion a force of fifty deputies escorted them to the safety.

### A Bloodless Duel.

Madrid, Oct. 6.—As an outcome of newspaper attacks, General Barges, captain general of Catalonia, fought a duel Sunday with pistols with the director of the newspaper El Imparcial of Madrid. Neither of the combatants was injured.

### GRAND JURY RETURNS

Alleged St. Louis Boo-lers Confronted With Indictments.

St. Louis, Oct. 6.—The June grand jury, which has been in session continuously since it was called into being, has made its final report and has been discharged. Of the five indictments handed, four related to criminal cases other than bribery. The other indictment contains two counts, in which sixteen members of the municipal assembly combined, are jointly charged with bribery. The men accused are: John A. Sheridan, Emil Hartmann, Edmund Bersch, Otto Schumacher, Charles Denny, Adolph Mader, John Schnettler, Charles Gutke, Louis Decker, T. Ed Albright, John Helms, Julius Lehmann, Charles F. Kelly, J. J. Hannigan, William Tamblin and Harry Faulkner, against whom bench warrants have already been issued and information filed.

The witnesses named on the back of the indictment are Delegates John K. Murrell, F. F. Murrell and George F. Robertson. The first count of the indictment recites that on Nov. 28, 1898, the foregoing acting in their official capacity as members of the house of delegates, entered into a corrupt bargain with Ed Butler, by the terms of which they were to use their influence and votes to secure the passage of the measure known as the city lighting bill, in consideration of the sum of \$47,500, paid by Ed Butler to Charles F. Kelly, to be distributed among the aforesaid delegates.

### WANTS IT SETTLED

Prince Rospigliosi Is Demanding Decisive Action.

Rome, Oct. 6.—The statement is made that the presence in Rome of the end of this month of Mr. Chapelle will result in decisive action with regard to the claims of Prince Rospigliosi in the matter of securing the performance of a religious ceremony with Princess Reikard. The Reid-Parkhurst marriage was celebrated by Mr. Chapelle when he was pastor of St. Matthews church, Washington.

Prince Rospigliosi threatens to create a scandal if his religious marriage with the princess is not allowed. He maintains that Mr. Chapelle did not obtain the necessary dispensation for Mr. Parkhurst, and that Miss Reid married Mr. Parkhurst without knowing that he was not of the Catholic faith.

Princess Rospigliosi has threatened for the annulment of her marriage with Reikard Parkhurst. The matter involves a question of canon law the decision of which is considered as likely to affect thousands of marriages of Catholics to non-Catholics in the United States. The princess was Miss Marie Reid of Washington, D. C., and was married first to Frederick Parkhurst of Bangor, Me.

### Brought to Time.

New Orleans, Oct. 6.—The condition of inactivity that has characterized the street strike for eight days underwent a change today. Mayor Capdeville last night at 7 o'clock notified the railway company that it would have to operate its cars upon all lines on or before 10 o'clock this morning. While the alternating action of the city authorities is not stated in the letter, it is understood that steps may be taken to attack the franchise of the company. The company then sent advertisements to the papers offering 20 cents an hour to experienced motormen and conductors. While not directed to the strikers the advertisement is evidently intended as a concession to them, as it is an advance of 2 cents an hour on what they were getting on the old contract. As a result most of the cars are running today.

### Inadequate Protection.

Minneapolis, Oct. 6.—Police Superintendent Waite has issued a warning to the public that his force was "notoriously inadequate" to cope with the burglars and porch-climbers now at work in this city. The thieves have secured fully \$10,000 in plunder during the last four days, the latest victim being Thomas Lowry, the millionaire railroad magnate, whose home was robbed of \$2,000 in jewelry Saturday night.

### He Was Despondent.

Springfield, O., Oct. 6.—Isaac Weymouth, who killed Marshal Harris of Cedarville while resisting arrest, hung himself Sunday morning. Despondency over money matters is the supposed cause of the deed. He separated from his wife recently.

### Levied On a Pullman.

Cripple Creek, Col., Oct. 6.—Sheriff Henry Robertson levied on a Pullman car for taxes amounting to \$663 which the Pullman company has neglected to pay, and in order to prevent the removal of the car, has chained it to the tracks.

### Had Been Drinking.

New Ulm, Minn., Oct. 6.—Christ Scher was shot and fatally wounded Sunday. The men had been drinking together, and are said to have quarreled about a woman. Scher has been arrested.

### Costly Cancer Search.

Scottsburg, Ind., Oct. 6.—J. A. Dehart is dead at his home, five miles northeast of this city, of blood poisoning. He had a coin on his toe which he pared two weeks ago, blood poisoning resulting.

### Base Ball.

National League—At St. Louis, Mo.; Chicago, 11. Second game—St. Louis, 5; Chicago, 6.

## SUNDAY TRAGEDY

Roadhouse At Michigan City the Scene of Wanton Shooting.

### QUARREL OVER A GIRL

One Man Fatally Shot and Another Seriously Wounded in Early Sunday Morning Melee.

Charles Severan Will Die and Milton Fuller Who Shot Him Is In Jail.

Michigan City, Ind., Oct. 6.—Charles Severan was fatally shot and Herman Hawk seriously wounded in a fight which took place early Sunday morning in a roadhouse near this city. Milton Fuller is locked up charged with the crime and Alva Fuller, his brother, is also in jail charged with being an accomplice.

The trouble began over a girl with whom young Hawk was dancing. Witnesses say words passed between Hawk and Milton Fuller, who without any other warning drew a revolver and shot Hawk through the arm. Hawk fell over into the arms of Severan, who reproached the man with the smoking revolver. Fuller resented the interference by firing two shots at Severan, one of which took effect in his jaw and the other in his body just above the kidneys. The injured men were conveyed to this city and physicians called, who pronounce Severan's condition as extremely critical.

### SOCIALISTIC SCHEME

Department Store at Elkhart on the Co-Operative Basis.

Elkhart, Ind., Oct. 6.—Socialists of Elkhart are arranging to put their theories to practical test in the shape of a department store, the control of which will be delegated to a manager subordinate to a board of managers, and the profits of which are to be divided equally among the members of the association according to the business each member does with the store. Instead of shares members will purchase certificates at \$25 each, no member to own more than one share. It is the purpose to have the plan in operation within five or six weeks, and a meeting will be held tonight to adopt the by-laws. The title of the association will be the Socialist Co-Operative Association of Elkhart.

The association will start with a grocery store and gradually add to the stock articles needed in the ordinary household until a complete department store is acquired. The directors will hold meetings bi-weekly and supervise the conduct of the manager. The sale of membership certificates will not be confined to Socialists, but the control of the enterprise will be exclusively socialistic. A strict account will be kept of the patronage extended by each member, and the division of profits apportioned accordingly.

### Carrie Nation Ejected.

Hartford City, Ind., Oct. 6.—Carrie Nation, the Kansas saloon smasher, was ejected from the Panhandle train at Dunkirk. Mrs. Nation could not find her valise when the train reached Dunkirk, and she refused to leave the coach until it was found. She said the negro porter had stolen it, and started through the Pullman cars in search of him. The porter nor the valise could be found, and Mrs. Nation was exasperated. The conductor told her he did not believe she had a valise, and she promptly called him a liar and flew into a violent rage. She delayed the train ten minutes and had to be ejected from the coach without her baggage. After the train pulled out the valise was found and delivered to her at Dunkirk. She had been engaged to make a speech at the corn and glass palace at Dunkirk.

### Gored By a Bull.

Decatur, Ind., Oct. 6.—S. M. Magley, living two miles north of this place, was attacked by a bull and seriously if not fatally injured. He was driving cows through the field in which the bull was kept, when it ran toward him. He was thrown several feet into the air, and when he fell the bull began stamping him. Assistance only arrived in time to prevent his being stamped to death.

### Must Answer to Uncle Sam.

Goshen, Ind., Oct. 6.—Samuel Dullinger of North Webster, Kosciusko county, was brought before United States Commissioner George R. Harper on the charge of violating the United States revenue laws in selling malt liquors without a license. He gave bond in the sum of \$100 for his appearance in the federal court.

### Incediarism Suspected.

Marion, Ind., Oct. 6.—An investigation sustains the belief that the destruction of the Jonesboro high school building was of incendiary origin. It was developed, however, that the boy who was suspected as being the incendiary is not the guilty party, but it is thought that some of his boy friends were the culprits.

### Big Loss in Grain.

Goodland, Ind., Oct. 6.—The Hartley Grain company's big elevator here was destroyed by fire with 300,000 bushels of oats. The loss is about \$150,000, partly covered by insurance.

## Desperate Expedients of Democrats Prove Unavailing.

Indianapolis, Oct. 6.—The efforts of the Democrats to create the impression that Republican county officers are short in their accounts is not making votes. Disclosures that the Democrats hoped would prove sensational have fallen on unresponsive ears. In this county, for instance, the Democrats employed two experts to go over the county books. They are now reporting supposed illegal allowances. But they cannot discover a shortage. The Republican officials to show how they regard the investigation have offered to help the Democrats get whatever information they desire. The Democrats have played their strongest card here, and it has not even created a ripple. They are threshing over the same figures they made public in '98 and 1900, and in each of these campaigns the Republicans increased their majority. They expect to do the same thing here this time. The Democrats are trying to place a cloud over the record of C. C. Gihlams of LaGrange, former auditor of LaGrange county, and an expert has reported that he is short \$300 or \$400. But the county commissioners have explained things to the satisfaction of the public. Gihlams, who is the Twelfth district Republican candidate for congress, simply has fees that are being held pending a decision of the supreme court. The Republican leaders say that Gihlams is making the sort of a campaign that has driven the Democrats to desperate resorts. The election of Gihlams is predicted. The experts have been at work in Rush county and elsewhere, but the Republicans do not fear them.

The crusade against the saloons is beginning to attract more than ordinary attention. When the Anti-Saloon League announced in August that it would put 1,000 saloons out of business during the ensuing year the saloon men pooh-poohed the idea. But they now have reason to change their minds, as the league is making good at a rate of 100 a month. And their efforts are to be supplemented by the Methodist church, as two conferences have appointed men to assist in the crusade. It is expected that the third conference will take similar action. The saloon men are making a fight, but for the first time in many years it looks as if the anti-saloonists have the best of the argument. The fact that the supreme court sustained the blanket remonstrance clause of the Nicholas law has given the league a powerful weapon. The brewers say they are keeping their hands off, which has led the saloon men's papers to charge them with being inactive because of knowledge that they can dispose of their product to grocers and drug stores.

D. M. Parry, president of the National Association of Manufacturers, will make an effort to end the anthracite strike. A few days ago he arranged for a conference between a committee of five representing the association and President Mitchell of the miners, and a committee of five. This conference had to be called off owing to arrangements of President Roosevelt, but it will be held tomorrow morning at Buffalo, N. Y. The Association of Manufacturers is a powerful organization, representing millions of dollars. The result of its efforts to end the strike will be awaited with much interest. The action of the operators at the White House conference has not shaken the confidence of the miners' officials here that they are going to win the strike.

Both parties will have more speech-making in the state this week. The Democrats are beginning to get into the speaking on a wider scale. The Republicans also expect to have more speakers, although they will be without the services of Senator Fairbanks, who will spend the week speaking in other states.

## Half and Half.

The dyspeptic may well be represented pictorially as being half masculine and half feminine, and combining the least desirable characteristics of either sex. He has all the stubbornness of the man with the peevish irritability of a sick woman.

Dr. Pierce's Golden Medical Discovery cures dyspepsia and other diseases of the stomach and associated organs of digestion and nutrition. It removes physical health which carries with it cheerfulness of temper, and makes life a pleasure instead of a penance.

The "Discovery" purifies the blood by eliminating the corrupt and poisonous accumulations from which diseases breed. It increases the activity of the blood-making glands, so increasing the supply of pure rich blood, which gives life to every organ of the body. It gives new life and new strength.

"Your 'Golden Medical Discovery' has performed a wonderful cure," writes Mr. H. H. House, of Charleston, Franklin Co., Ark. "I had the worst case of dyspepsia the doctors say they ever saw. After trying seven doctors and everything I could hear of, with no benefit, I tried Dr. Pierce's Golden Medical Discovery and now I am cured."

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach, blood and lungs. The Common Sense Medical Adviser, 1008 large pages in paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

## DO YOU EAT

Heartily and enjoy it, or does your food lay heavy in the stomach, causing Nausea, Belching, Heartburn and Sick Headaches? If it does, try a dose of Hostetter's Stomach Bitters before each meal. It will tone up the stomach, stimulate the digestive forces and cure these ailments, which if allowed to continue will develop into chronic dyspepsia. Try it today and notice the improvement.

ONE of the best evidences of prosperity is the fact that the number of telephones in Indiana has increased in the last six years from 7,000 to 92,000. Yet Indiana democratic editors and orators continue to talk through their hats in the same old way.

THOSE who voted disaster upon the country in 1892 were compelled to grin and bear it; those who voted the republican ticket had at least the satisfaction of saying: "I told you so!" but the fellows who stayed at home because they were too busy to vote not only had to take what was coming to them in the way of lessened wages or profits, but had to wear out sole leather kicking themselves. Don't be too busy for your own good on Tuesday, Nov. 4.

### POLITICAL GOSSIP.

In commenting on political conditions in the Fourth district the Indianapolis Journal says:

"In the Fourth district there promises to be a lively fight. The Republicans have put forward against Francis Marion Griffith, of Vevay, Joshua M. Spencer, mayor of Rising Sun, an able lawyer, who has attained in his district an enviable reputation for ability and sanity of views. It is pointed out that Griffith has done absolutely nothing to cause his return; that his career in Congress has been characterized principally by negative acts. The Fourth is in need of attention in the way of appropriations, and it is claimed that only a Republican can give the needed help to the district. There is a quiet story in circulation in the district that the friends of the late William S. Holman are dissatisfied with the attitude of Mr. Griffith toward pensions, and that they are rallying to the support of Mr. Spencer. There is a heavy plurality in the Fourth to overcome, but there is more work being done this year to overcome it than for some campaigns past.

On the fourth page today appears the precinct boundary lines for Jackson township as changed by the county commissioners a few months ago. It will interest all voters to ascertain definitely in which precinct they live.

EIGHT years ago a democratic secretary of the treasury was issuing bonds at an exorbitant rate of interest, to meet a deficiency in the revenues caused by a tariff for revenue only that produced ruin, but not revenue. Now a republican secretary of the treasury is anticipating interest payments on bonds, thus saving thousands of dollars to the government. Which do you prefer, deficiency and disaster, or prosperity and a surplus? Every voter must express his preference on Tuesday, Nov. 4.

THE Paoli Republican in reporting the judicial convention has this to say of John M. Lewis, the nominee for prosecutor:

"John M. Lewis, the nominee, is a bright and intelligent man, and is a lawyer by education and has had an experience of several years in which he has been very successful. He has recently served as city attorney for the city of Seymour in which he gave universal satisfaction and made a very popular officer. He ought to be elected prosecuting attorney of this circuit, for it is the only way in which we can have a capable prosecutor."

THE corn crop of the United States this year is estimated at 2,500,000,000. It will all of it bring a good price too as the demand for fat stock of all kinds practically cleaned up the rather short crop of last year several months ago. So long as our present commercial activity continues farm products will continue to bring good prices and this continuance will be limited practically by the retention in power of the republican party. The republican party is the party which is not in favor of allowing European workmen to make anything which can be made in this country and which defends this position by maintaining a high protective tariff.—Terre Haute Tribune.

### Danger in Fall Colds.

Fall colds are liable to hang on all winter leaving the seeds of pneumonia, bronchitis or consumption. Foley's Honey Tar cures quickly and prevents serious results. It is old and reliable, tried and tested, safe and sure. Contains no opiates and will not constipate. All druggists.

To accommodate those who are partial to the use of atomizers in applying liquids into the nasal passages for catarrhal troubles, the proprietors prepare Ely's Liquid Cream Balm. Price including the spraying tube is 75 cents. Druggists or by mail. The liquid embodies the medicinal properties of the solid preparation. Cream Balm is quickly absorbed by the membrane and does not dry up the secretions but changes them to a natural and healthy character. Ely Brothers, 56 Warren St., N. Y.

### MILLER'S MEETING.

#### Able Speech by Indiana's Next Attorney General.

Hon. Chas. W. Miller, of Goshen, republican candidate for attorney general, was greeted by a very attentive crowd at Society Hall Saturday night. While the hall was not crowded it was the largest political meeting held in Seymour since the campaign opened, there being nearly 300 present.

John M. Lewis presided over the meeting and introduced the speaker. It was Mr. Miller's first speech in Seymour and it was one of the best and most convincing arguments in behalf of republican principles and policies heard for a long time. He is a forcible and entertaining speaker and handles facts in a way that cause his hearers to think.

Mr. Miller traced the history of the republican party from Lincoln to Roosevelt and showed that under republican administration the country had moved steadily forward to commercial and industrial supremacy. During that time there had been but four years of retrograde movement and that was from 1893 to 1897 when the democrats had control and tried their hand at "tariff for revenue only." Mr. Miller discussed trusts at length and made plain the position of the republican party on this great question, and the purpose of the party to enact further laws to regulate and control these combinations of capital. He showed that the only anti-trust laws enacted were enacted by republicans over the opposition of democrats. He thus pointed out the inconsistency of the Democratic party on the trust question in Congress, in platform declarations, and on the stump.

He also discussed the foreign policy of the administration, extolling the statesmanship of William McKinley and Theodore Roosevelt towards our new possessions. The facts and figures given to show the commercial and industrial growth of the country during the past five years emphasized the wisdom of republican policies.

This speech of Mr. Miller's was a remarkably clear and forcible presentation of the issues of the campaign and the audience showed a deep interest in the arguments advanced.

### HENRY CLAY AS AN ACTOR.

How the Great Lawyer Won a Hopeless Case.

An old and well known traveler, who has recently settled in Chicago, while enroute from Peoria valley the other afternoon told an interesting story about Henry Clay, the great Kentucky statesman. The story told in his youth lived in Mr. Clay's district during the time when Henry Clay was at his prime as a lawyer.

"A man was once being tried for murder," said the narrator, "and his case looked hopeless indeed. He had without any seeming provocation murdered one of his neighbors in cold blood. Not a lawyer in the county would touch the case. It looked bad enough to ruin the reputation of any barrister.

"The man as a last extremity appealed to Mr. Clay to take the case for him. Every one thought that Clay would certainly refuse, but when the celebrated lawyer looked into the matter his fighting blood was roused, and to the great surprise of all, he accepted.

"Then came a trial the like of which I have never seen. Clay slowly carried on the case, and it looked more and more hopeless. The only ground of defense the prisoner had was that the murdered man had looked at him with such a fierce, murderous look that out of self defense he had struck first. A ripple passed through the jury at this evidence.

"The time came for Clay to make his defense. It was settled in the minds of the spectators that the man was guilty of murder in the first degree. Clay calmly proceeded, laid all the proof before them in his masterly way, then, just as he was about to conclude, he played his last and master card.

"Gentlemen of the jury," he said, assuming the fiercest, blackest look and carrying the most undying hatred in it that I have ever seen, gentlemen, if a man should look at you like this what would you do?"

"That was all he said, but that was enough. The jury was startled, and some even quailed on their seats. The judge moved uneasily on his bench. After fifteen minutes the jury filed slowly back with a 'Not guilty, your honor.' The victory was complete.

"When Clay was congratulated on his easy victory, he said:

"It was not so easy as you think. I spent days and days in my room before the mirror practicing that look. It took more hard work to give that look than to investigate the most obtuse case!"—Louisville Courier-Journal.

### May See the Comet.

If the sky is clear of clouds tonight, Seymour people will be able to get a first glimpse of the new Perrine comet, one of the few comets in recent years that have been visible to the naked eye. Tonight it will be just south of the constellation Cassiopeia, which is very close to the pole star. The best way to find it is to locate the pole star, as soon as possible after dark. Nearby the large cross of Cygnus will be seen, and still nearer will be seen the constellation Cassiopeia, which will look like a poorly formed letter "W" lying on its side.

Quite close to Cassiopeia will be seen a haze on the black-blue background of the sky. The haze will be about the size of the familiar nebula in Andromeda. That haze is the new Perrine comet, named after Professor Perrine, an American, who discovered it while working with the great refracting telescope at Mt. Hamilton, California.

The comet has almost no head and little nucleus. It has only a short tail and cannot be described as having any particular shape. Many people who are unfamiliar with astronomy may have trouble in locating the comet without the aid of a chart.

The comet is moving to the south west and its course straight. It is traveling at a remarkable rate of speed. It will reach its nearest approach to the earth October 8, when it will be 32,000,000 miles from this planet. On November 23 it will reach its nearest approach to the sun—37,000,000 miles. On October 6 it will be within 5 degrees northwest of Alpha of the constellation The Swan. On October 10 it will lie near to 10 degrees of the star Vega, in a south-eastern direction October 12 will find it almost straight south of Vega, and on October 14 it will have gone still farther south and a little to the west of that star. On October 18 the comet will be in the vicinity of the bright star Beta Ophiuchi, and thence it will pursue its journey to the south.

### Biff the Bookers.

The wholesale prosecution of off-off bookers in St. Louis cannot but be gratifying to the whole country. Of late years there has been a growing tendency to resort to official corruption. And this tendency will continue to grow, for when the people once possess the vantage ground they will not easily relinquish it. The day of the grifter in municipal politics is surely waning.—Terre Haute Tribune.

### Drowned in Bathing.

Peoria, Ill., Oct. 6.—Mrs. Frank B. Townsend was drowned in a bathtub at her home Sunday. Her husband was preparing the bath for her. In an effort to heat the room he disconnected a pipe which carried off the poisonous gases from an instantaneous heater. In a few seconds he was overcome by the fumes of the gas and fell to the floor. His wife rushed to his assistance and she too was overcome. She fell into the bathtub, which was partly filled with water, and was drowned. Mr. Townsend will recover.

### Surround Measures.

Colon, Colombia, Oct. 6.—Under recent orders issued by Rear Admiral Casey, who is at Panama on the battleship Wisconsin, no Colombian military officers or troops and ammunition will be allowed to be transported across the isthmus by rail unless by special permission. This order ignores the passes issued by the railroad company.

## REAL PROSPERITY

Indiana Farmers Are Now Enjoying It.

### SOME STATISTICS ON PRICES

Show That the Purchasing Power of an Average Crop Is Far Greater Today Than It Has Ever Been Before.

Indiana Democratic newspapers are engaged in trying to make the Indiana farmer believe that while he may be enjoying some "fictitious prosperity" in the selling price of his products, he is paying for it in increased prices for the articles he consumes. It is alleged that agricultural implements are being sold at a greater price abroad than at home. That argument was industriously used from 1888 to 1892, and then came an administration Democratic in every branch, with a Democratic tariff law. While the farmer failed to secure agricultural implements at the "export price" so industriously exploited in Democratic campaign documents of the early '90s, he did get a taste of tariff reform prices when he came to sell the products of his farm.

Inquiry of one of the leading hardware merchants of Indianapolis reveals facts which form the basis for the following table of comparative prices on standard agricultural implements:

	1894.	1902.
Buckeye Reaper.....	\$100 to \$125.	\$100 to \$125.
Buckeye Mower.....	40	40
White Farm Wagon.....	50	62
Oliver Chilled Plow.....	12	12
Corn Cultivator.....	25	25
Hoober Wheat Drill.....	40 to 50	50 to 60.

In other words, this total bill of implements would have cost an Indiana farmer in 1896, \$277; in 1902, \$290. In 1896 it would have cost him 500 bushels of wheat, in 1902, with more wheat to pay with, he can buy the lot for 382 bushels; in 1890 it would have taken 1,385 bushels of corn in an even trade for the outfit, in 1902, 518 bushels buy it, and the farmers of Indiana have the corn. In 1896 the purchase price, expressed in oats, was 2,308 bushels, in 1902 it is 764 bushels. In 1896 it would have taken four horses and \$37 besides to buy the lot, in 1902 three horses of equal quality would buy the implements and the farmer would have \$10 coming to him. In 1896 the Indiana farmer would have had to sell eleven steers of average weight, and borrow two dollars, in order to secure the implements; in 1902 the farmer would have to dispose of only eight steers of equal weight and quality, and then would get \$30 "to boot." In 1896 the farmer who wanted the outfit would have had to drive forty-six hogs of average weight to the scales, and then would have owed one dollar; now twenty-three hogs of the same weight and quality would not only represent the value of the outfit, but the farmer would have \$9 coming to him.

One of the leading clothing merchants of Indianapolis says: "You may safely make the statement that clothing today is cheaper, quality considered, than it has ever been." A leading shoe merchant says: "If anything, shoes are a shade lower in price than they were in 1896." Dry goods are a shade higher, the average increase in price being, however, less than 10 per cent. General hardware is no higher than in 1896; nails and wire are about the same; stoves have increased about 10 per cent in price. When it is remembered that, where prices have been increased they represent, in very few cases, more than the increase in wages paid to operatives, neither the operatives or the farmers whose products they buy are likely to find in this cause of complaint.

♦♦♦♦♦ An Independent Paper's Tribute to State Institutional Management. ♦♦♦♦♦

In view of the platform declaration of the Indiana reorganized Democracy that the state's penal and benevolent institutions have been "prostituted to partisan ends" by the present state administration, the following paragraph from the Independent Indianapolis News of Sept. 10th is of interest:

"The opening of the new hospital for the sick insane at the Central Hospital for the Insane last night is an event. It justifies the appropriation by the legislature that made it possible, and it is another illustration of the breadth and efficiency of Dr. Edenharter's management. Some time ago this able superintendent established a pathological laboratory that put this institution in the front rank of similar institutions. With the opening of the hospital to which the sick can be removed from the regular wards, another important step forward is taken. We have made great progress in our state in the care of our public institutions. We have abandoned forever, we believe, the idea of making political spoils of these institutions, and are beginning to awaken to the need of making them models of their kind."

### The Catholic Center.

The largest center of the Roman church in America is the archdiocese of New York, with an estimated Catholic population of 1,200,000. Its numbers surpass those of all the most crowded centers of Italy, including Rome, Naples or Milan; and only the principal archdioceses in Europe such as Cologne, with 2,528,000 people and Vienna with 1,900,000 go beyond it.

## Bold Swindlers.

A very slick pair of swindlers are operating in this section of the country, and it is said that a number of people have been victims of the man and woman who travel together and work in connection with each other.

Their scheme is to raise express money orders, checks and other negotiable paper. The checks and money orders are made out of sums not less than \$1.

When presented for payment they are for \$10, the change having been effected by means of an acid, and the order subsequently raised. The United States company has lost quite a sum of money through the operations of these people who have thus far escaped undetected, but now that the company has taken hold of the matter and employed detectives and sent out instructions to all agents, it is not thought the work of the swindlers will be of long duration.—Knightstown Journal.

Out of a class of 250 freshmen in the Northwestern University 118 failed in the spelling test in examination. As is the custom these students were relegated to the "pit" class for the balance of the year and will be required to take up elementary spelling as part of their studies. What is the matter with the city schools that such spellers are turned out nowadays? In time gone by it was a disgrace to spell ill, no matter if one knew nothing about anything else.—Ex.

Beware of Ointments for Catarrh that Contains Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine it is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by druggists, price 75c per bottle. Hall's family pills are the best.
